Please find attached EPA and CDH comments on the Final Phase I RFI/RI Workplan for ~~000016528~~ (480/800 Area) attached to a CDH letter to DOE/RFO dated November 3, 1992. Note that they have provided conditional approval of the workplan subject to resolution of the comments. We request that EG&G review the comments and make appropriate changes to the workplan. We further request that EG&G provide written responses to the comments.

A meeting will be scheduled with both EPA and CDH as soon as possible to discuss the attached comments.

Both inserts to the workplan and responses to comments should be provided to DOE by December 8, 1992. This should provide sufficient review time for my staff as well as sufficient time for your staff and subcontractors to make any final changes. The workplan inserts and responses to comments are due to CDH no later than December 18, 1992.

Questions or concerns regarding this memorandum and the attached comments should be addressed to Bruce Thatcher of my staff at extension 3532.
